

ActiThin Solvent

Technical characteristics & usage advice

The ActiThin Neoprene Thinner and Cleaner Thinner has a high solvent making it ideal for thinning for Neoprene adhesives.

Features:

- Removes bonding materials.
- Promotes fast drying
- Excellent for use with any all-purpose neoprene.
- Can be used for cleaning tools, brushes, glue container and working areas.

Application:

Apply to both surfaces and allow to tack - 15 minutes as a general rule.
